Question 2: What are effective and sustainable mechanisms or processes to integrate local, community, sub-national, national, and regional voices, priorities, and contributions into health system strengthening efforts?

The NMS+ Enterprise Resource Planning System – Multisectoral Systems Strengthening through Deployment of ERP Systems

Kiarie Macharia (USAID Uganda), Anthony Anamah (USAID Uganda), Stephen Kisuze (National Medical Stores, Uganda)

Activity Impact

What evidence do you have that the integration of local, community, sub-national, national, and regional voices, priorities, and contributions into health system strengthening efforts is successful? What evidence do you have that this approach was successful? How can you best show what your activity accomplished? How did you measure your impact?

Evidence

What evidence do you have that the integration of local, community, sub-national, national, and regional voices, priorities, and contributions into health system strengthening efforts is successful? What evidence do you have that this approach was successful? How can you best show what your activity accomplished? How did you measure your impact?

Facilitators

What were some facilitators that you identified as enabling your activity implementation? Do you expect these facilitators or any other facilitators to be leveraged in future health system strengthening efforts?

Challenges

What were some problems or challenges that you faced during your activity implementation? Did you expect these challenges or were they unanticipated? How did you respond to these challenges?

Lessons Learned

What lessons have you learned while you implemented this activity? How will this inform future activities or approaches? What action would you take to leverage lessons and health system strengthening outcomes for other ongoing or future health system strengthening efforts?
